THE FIREMAN'S ALMANAC

1861.

The third Volume of the Fireman's Almanac for 1861 will be issued on the 15th December, 1860, simultaneously in Brooklyn, New York, Boston, Providence, Philadelphia, Baltimore, New Orleans, St. Louis, Cincinnati, Chicago, and Buffalo.

The Almanac will contain 96 pages. The Contents will be entirely original. The Designs and Engravings will be got up expressly for this work, as good as can be executed in this country.

The first Volume of this work, published for 1859, reached the enormous circulation of 243,000 copies; Volume 2, published 1860, 300,000 copies; and it is believed that the third Volume will exceed 500,000 copies.

A limited number of Advertisements will be inserted in this work.

All Advertisements for 1861 must be sent in before the 1st of November to secure insertion.

The Prices for Advertising will be as follows:—

Page, or Back of Cover, in Two Colors,	$125 00
" Inside of Cover, " each	50 00
1 Page in the Almanac, "	30 00
1 " " " Top Card excepted, in Two Colors,	25 00

JOHNS & CROSLEY'S IMPROVED

GUTTA PERCHA CEMENT ROOFING.

THE
Cheapest
and most
DURABLE
ROOFING
IN USE.
Sent to any part
of the country
with directions
for application.

SPECIMENS and references can
be seen, and any desired informa-
tion obtained on application, by
letter or in person, at our OFFICE,
510 BROADWAY, N. Y.
(Opposite the St. Nicholas Hotel.)
JOHNS & CROSLEY.

This article has been thoroughly tested in NEW YORK, BROOKLYN, and all of the SOUTHERN and WESTERN STATES, by BUILDERS, ARCHITECTS, and others, *and the experience of years has proved it to be the* CHEAPEST and most DURABLE ROOFING in use. *This is the ONLY material manufactured in the United States* which combines the very desirable properties of *Elasticity* and *Durability*, possessed by **Gutta Percha** and **India Rubber**, and which is entirely free from the many objectionable features of nearly all materials heretofore used for Roofing purposes.

We would call attention to the following *facts:*

1st.—IT IS FIRE AND WATER-PROOF.

2d.—**From its great elasticity it is not injuriously affected by extremes of HEAT and COLD in any climate.**

3d.—*It is adapted to* ALL KINDS *of* ROOFS, *whether* STEEP *or* FLAT, *and is not in need of constant repairs, as is the case with metal and other roofs.*

4th.—**THE COST is only about ONE-HALF that of Tin, and is TWICE as durable.**

NO HEAT IS REQUIRED IN MAKING APPLICATION.

It is readily applied to OLD SHINGLE ROOFS without removing the Shingles. *Gutters can be formed with this material, thus saving the expense of metal ones.*

GUTTA PERCHA CEMENT.

For PRESERVING and REPAIRING Tin and Metal Roofs of all Kinds,

IS THE ONLY COMPOSITION KNOWN *which will successfully resist extreme changes of all climates, for any length of time, when applied to metals.* It adheres firmly to tin and other metals, forming, when applied, a body equal to three coats of ordinary paint, and will last THREE times as long; and from its elasticity is not injured by the contraction and expansion of tin and other metal roofs, consequent upon sudden changes of the weather.

It will not crack in cold, nor run in warm weather, and will not wash off.

LEAKY TIN and METAL ROOFS are readily repaired with GUTTA PERCHA CEMENT, and prevented from further corrosion and leaking, THEREBY INSURING A PERFECTLY WATER-TIGHT ROOF FOR MANY YEARS.

We are prepared to apply these materials and to supply orders from any part of the country, at short notice, for GUTTA PERCHA ROOFING already prepared for use, and GUTTA PERCHA CEMENT, by the Barrel, to Agents, Contractors, and others, with FULL PRINTED DIRECTIONS FOR APPLICATION.

Our terms to Agents and others, which are liberal and satisfactory, and any desired information, will be given on application, by letter or in person, at our office, where specimens and the list of references can be seen.

JOHNS & CROSLEY,

Principal Office, **510 *BROADWAY*, opposite St. Nicholas Hotel, New York.**

PREFACE.

In again presenting the Directory to the citizens of Brooklyn, the Compiler may express his belief that it will exhibit a completeness for all practical purposes not exceeded by any other Directory issued, and that the perplexing labor involved in its publication will be appreciated by an intelligent public.

Experience does not justify the hope that there will be no exceptions to the general satisfaction. There are those in every community who quarrel with their own shadow; and we may hardly expect the approval or indulgence of such. There are others who cavil from sinister motives, and assail the fidelity of the compiler, to disguise what, if made public, would cover them with infamy. To the above-mentioned classes we have no apology to offer.

Respecting any deficiency that may relate to the omission of the name and residence of our citizens, a word of explanation may be offered, almost universally. The public has cheerfully contributed the information essential to the completeness of this work. There are several classes, however, who have persistently refused the needed information. Among these are persons, for the omission of whose names it will be a sufficient apology to say, "They love darkness rather than light, because their deeds are evil, for every one that doeth evil hateth the light." Other delinquents are respectable citizens, liable to jury duty, who, to avoid the inconvenience attending such duty, prefer obscurity, and the suspicion that is attached to it. Others, who are liable to military duty, also seek obscurity, to escape the responsibility of citizenship, and to save the paltry commutation sum of *seventy-five cents.* Sometimes the names of these parties have to be obtained by stratagem, at considerable expense and labor; and in a few instances, after receiving great annoyance, we fail to procure them. For the information of one of these classes, we append an extract from the Session Laws of the State of New York.

But, despite all opposition, we have been able to obtain more names over last year's issue than were given in the entire Directory for 1857, showing continued increase, not only in population, but in every element pointing to the future greatness of our beautiful city.

We now leave our Directory to the judgment of our numerous patrons and friends, in the conviction that its completeness and adaptation will meet with their approbation, which will be our greatest reward.

Extract from the Session Laws of the State of New York.

PASSED APRIL 17TH, 1858.

SECTION 9.—Every person applied to by the said Assessor, or the said Commissioner (of Jurors) or his Assistant, for information as to the liability of persons to perform jury duty in said county, shall communicate correct information; and any person who shall refuse to give such information as he may possess on the subject, or shall make any false representation in regard to the identity, residence, or other matters pertaining to any juror, drawn and directed to be summoned as herein provided, or shall suppress or destroy any notice left for any juror during his absence at his place of business or residence, shall be deemed guilty of a misdemeanor, and shall be punished accordingly.

CONNERS'

UNITED STATES TYPE FOUNDRY,

Nos. 29, 31 & 33 BEEKMAN STREET,

NEAR THE CITY HALL, **NEW YORK.**

TO PRINTERS AND PUBLISHERS.

The undersigned beg to inform the trade that their

NEW QUARTO SPECIMEN BOOK

is much enlarged and beautified, with numerous new and elegant articles, of a decidedly superior order, which to enumerate would occupy too much space—yet they cannot forego calling the attention of printers to the two

NEW SERIES OF SCOTCH CUT FACES,

From Pearl to Pica—surpassing, if possible,

THEIR ORIGINAL SCOTCH CUT FACES,

Which have given such universal satisfaction (and are now being imperfectly imitated) East, West, North, and South.

THE FANCY TYPE DEPARTMENT

Exhibits an unsurpassable quantity of styles, of Home Origin, and selected from England, France, and Germany. And their

New American Scripts, Round Hand, and Italian Scripts,

BORDERING, &c.

Are not to be excelled in this, or any other country; and this the undersigned make bold to say of their specimens, as they have now reached a point (by large outlay and perseverance) originally aimed after—that is, to excel in quality of the article furnished, and in the variety of styles presented for selection—surpassing all Similar Establishments. The several styles have only to be seen to be appreciated. Particular attention is called to their German department—wherein is shown as splendid

German Faces and Styles

As can be seen in the German Confederation, or the United States. Particular attention having been given to the selection, in obtaining the styles from the very best type foundries throughout Germany, whether for Book, Job, or Newspaper printing. ALL TYPE cast at their establishment is now manufactured from the METAL known as

Conner's Unequalled Hard Type Metal,

Which HAS SECURED the printing of the enormous number of

TWENTY-TWO TO TWENTY-EIGHT MILLIONS OF SHEETS,

And doing GOOD SERVICE for the period of near ONE YEAR—as will be verified at the office of the *New York Herald*, many of the Daily and Weekly Newspapers in this city, and throughout the United States and Canadas, as well as by a large number of Book and Job Printers using Machine Power Presses.

Every Article necessary for a perfect Printing Office furnished, as above, and by our Agents,

GEORGE H. VINTEN, New Orleans, La. **WILLIAM FAULKNER**, San Francisco, Cal.
ROUNDS & LANGDON, Chicago, Ill.

ELECTROTYPING and STEREOTYPING in all their branches, executed in THE BEST STYLE. TYPE COPPER-FACED TO ORDER, at an additional charge of about 20 per cent. Old Type received, at our counting-room, in exchange for new, at 10 cents per pound. SIX MONTHS CREDIT, ON APPROVED PAPER; or a LIBERAL DEDUCTION FOR CASH.

Specimens are now ready, and will be sent to such as are about ordering Type, etc.

JAMES CONNER & SONS.

PHILIP ROLLHAUS'

PATENT

KNICKERBOCKER RANGE.

SEVEN SIZES.

SUITABLE FOR PRIVATE AND PUBLIC HOUSES.

The reputation established by this Range throughout the United States during the last few years, is a sufficient guarantee of its acknowledged usefulness. Nevertheless all sizes have of late been very much improved and perfected; and to make this Range still more convenient and durable, more Iron has been added. The construction of the top is now such that the main part of it is entirely protected from the fierce heat of the fire, whilst the loose plates immediately over the fire are so constructed and secured, that nothing material about them can ever burn out.

The arrangement of the flues—upon which the great convenience and reputation of a Range depend—differ from any now in use, being all cast iron, and running diagonally and horizontally, and so constructed in relation to each other as to insure the most perfect draft, by forming five separate flues around each Oven, causing them (the ovens) to be heated at all points alike, and we warrant them to bake equally.

The Dampers are so arranged as never to get out of order; they can be opened and closed without removing any thing from the top of the Range, and are also easily observed and understood—which is a great advantage to Families when changing their cooks.

The Broiling apparatus pleases all, without exception, who have occasion for its use; being so constructed and arranged as not to give the least offensive smell in the house while broiling.

By a Water-back and Boiler attached to this Range, a large supply of water may be kept constantly boiling, ready for all purposes.

The principle of this Range is plain and simple, and requires no more skill in using it than the ordinary Stove; and if managed carefully and in accordance with the printed Directions, which accompany each Range, the saving in fuel and repairs will, in a few years, have saved the first cost of the Range. References to substantiate this fact may be selected to persons who have them in use, in any part of this and the surrounding Cities, by calling at the Range Factory, where a Range is kept in constant operation, and where every thing can be more minutely exhibited and explained.

☞ An extensive assortment of

Parlor, Hall, and Cooking Stoves, Portable Heaters, Cooking Utensils, &c.,

may also be found at the same place.

SAVE YOUR CARPETS.

HARRINGTON'S PATENT CARPET LINING.

This article is used for laying under Carpets, Oilcloth, and Matting, as a substitute for paper, straw, &c. It protects the Carpets from nail-heads or any unevenness in the floor; it muffles the sound of footsteps; causes an inferior Carpet to feel equally as rich to the tread as a tapestry velvet, and is warranted to add 50 per cent. to the durability of Carpets, Oilcloth, and Matting. It is in use under the Carpets of the principal Hotels, Steamboats, and Churches. For sale by any of the Carpet Dealers, and wholesale by the sole manufacturers,

Desirable Cooking
RANGES,
EIGHT SIZES.
THE EXTRA LARGE FOR
HOTELS AND DINING SALOONS
LESSER SIZES FOR
BOARDING HOUSES,
And Four Sizes expressly for
FAMILY USE,
Consuming far less Fuel than any other Range, completing all cooking in the most desirable manner.

Salesroom, 242 Water St., N. Y.

An examination of Shepard's Superior Ranges will satisfy all, that nothing is offered to equal them in style, economy, efficiency or durability. Their economy is unquestionable. The cost of a Range will be amply repaid in the great saving of fuel. The superior Baking and other culinary operations, by their perfection alone, would also save much that is now wasted.

These Ranges are extra strong and durable, no weight of metal or expense has been spared to make them complete.

A PERFECT OPERATING

RANGE

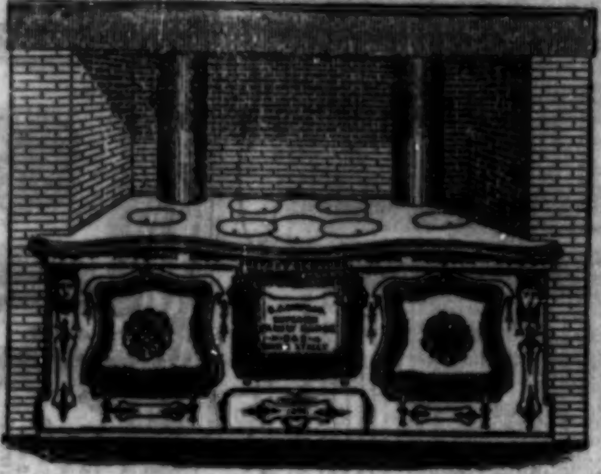
Is one of the most desirable articles for

HOUSEHOLD USE.

BY IT ALL THE

WATER

for Bathing, Washing, and culinary purposes may be heated.



GOOD COOKING.

What conduces more to the comfort of a family than a good

RANGE?

Does it Bake and Roast to perfection? are the first inquiries.

Cakes, Bread, Pies, Pastry, &c.

can be baked as well as in a brick oven, and the Roasting is most perfectly accomplished.

TESTIMONIALS.

From R. M. Stratton, Novelty Iron Works, No. 167 East 18th Street.

New York, 3d Mo. 13, 1858.

Charles J. Shepard—

Esteemed Friend—During the past 12 years, I have used in my kitchen three different styles of Ranges, and I do not hesitate to say that thine, for all culinary purposes, is a far better article than any we have heretofore used. In Baking, it cannot be excelled. In Boiling, many facilities are experienced. In Roasting, in a tin oven in front, it has performed that part as well as any other. The amount of fuel consumed in performing the same work is fully one-third less than any other Range ever used in my family, and it is so simple in its arrangement that I cannot see how any person can mistake its use.

Very respectfully,

R. M. STRATTON.

From the Darcy House, Jersey City.

Jersey City, March 5, 1858.

Mr. Chas. J. Shepard—

Dear Sir—We have had one of your largest size Cooking Ranges in use at our Hotel, (Darcy House,) Jersey City, and find it to answer all our expectations, and would recommend it as being one of the best Ranges in use.

Yours,

TAYLOR & SYLVESTER.

From Wm. Hickok, Esq., Minnesota Mining Co.

New York, Feb. 17, 1858.

Mr. Charles J. Shepard—

Dear Sir—I have never had any conveniences for cooking which has pleased me as well as your Range.

It consumes much less coal than I had supposed possible, and the ovens furnish the most finished Baking. Either for Baking, Roasting, Broiling, or any kind of family cooking, it is very complete.

Yours, truly,

WM. HICKOK.

From H. B. Scholes, Esq., Iron Founder.

Bedford Av., cor. Ross St., Brooklyn, March 2, 1858.

Mr. Chas. J. Shepard—

Dear Sir—Your Range has given perfect satisfaction. I can recommend it as a good family Range, combining simplicity, economy, and durability, and one that servants can manage. It has never spoiled a dinner, and bakes bread to perfection.

Very respectfully,

H. B. SCHOLES.

From Chas. S. Hine, Esq., Stamford, Conn.

13 Bowery, N. Y.

Mr. Chas. J. Shepard—

Dear Sir—Your Range exceeds the high character which you gave it when I purchased. Nothing I have ever had has given my family such perfect satisfaction, or executed as much work with as little expense. It consumes far less fuel than any Range I ever had—half a ton of coal per month is amply sufficient. The Broiling and Roasting arrangements are very superior, and I think I never saw more finished baking oven in a brick oven. You have the most perfect Cooking Range for family use ever offered.

Very respectfully, yours,

CHAS. S. HINE.

From David Syme, Sup't Public School No. 6.

Brooklyn, March 9, 1858.

Mr. Chas. J. Shepard—

Dear Sir—The Range has given, and continues to give, entire satisfaction.

I find, after a trial of ten months, that you had not overrated its excellent qualities. Its fitness and efficiency are unquestionable.

You deserve great credit for supplying the public with an article so well adapted for culinary purposes, and at a price so reasonable.

Yours,

DAVID SYME.

SHEPARD'S RANGE TESTIMONIALS.

From Thomas B. Stillman, Esq., New York.

Mr. Chas. J. Shepard—

Dear Sir—I shall not fear an appeal to any members of my family, who have had the privilege of using your Range, in verifying all that I have to say in regard to its merits.

For convenience, it excels any Range I have ever used, in the adjustment of the cooking utensils, and to the ovens as well as to the grates, in which you have made a great improvement.

In efficiency, your Range has no superior within the compass of my knowledge, both for the various kinds of cooking and for baking, for which it is superior.

In economy, I find a great advantage over any other Range I have ever seen—the consumption of fuel being far less than usual.

Yours, truly,

THOMAS B. STILLMAN.

From Rev. P. J. Van Pelt, 73 Hammond St.

New York, Feb. 28, 1859.

Mr. Chas. J. Shepard—

Dear Sir—It gives me pleasure to say, that your Kitchen Range gives entire satisfaction.

Yours,

P. J. VAN PELT.

"West's Hotel,"

Sandusky, Ohio, Dec. 29, 1858.

Chas. J. Shepard, Esq.—

Dear Sir—Your Range has been in constant use in our hotel for four months, during which the State Fair was held at this place, when we cooked for over eight hundred persons.

It gives us pleasure to state that it did its work admirably.

Mr. Thos. Skank, our chief cook, who has been in the business for the past thirty years, says it is the best Range he ever saw; it heats very quick, and does not get out of order. We are very much pleased with it.

Yours, respectfully,

W. T. & A. K. WEST,

Proprietors.

From F. G. Berteau, Esq., Chicago.

Chicago, Jan. 27, 1859.

Mr. Chas. J. Shepard—

Dear Sir—It gives me pleasure to certify that, for the last eighteen months, I have been using one of your Ranges. I have found it far superior to any I had used before, as to convenience for cooking; and as to saving, it certainly consumes much less coal than any of the other Ranges I have used.

Yours,

F. G. BERTEAU,

Principal of an Institution for Young Ladies, Chicago, Illinois.

From David Drake, Esq., Lenox Fire Ins. Co.

Hudson City, N. J.

Chas. J. Shepard, Esq.—

Dear Sir—The Range purchased of you has given entire satisfaction, consuming but about one ton of coal in fifty to sixty days—baking to a charm; and the Roaster (which, by the way, is a great addition) gives us meats and poultry cooked in the old-fashioned style, instead of being baked in the side ovens, which, as all epicures know, is a very unsatisfactory method of cooking most meats, &c.

Very truly, yours,

D. DRAKE.

From "Sailors' Home," Cherry Street.

Sailors' Home, New York, 23 Feb., 1859.

Mr. Chas. J. Shepard—

Dear Sir—The Cooking Range you placed in the Sailors' Home, about four months ago, has been in constant use ever since, and permit us to say, that it has acted like a charm, and gives entire satisfaction in every particular.

It has all the good qualities for what it is intended—and my wife (who has charge of the culinary department) desires me to say, that it consumes about one-third less coal than the one you removed, though of the same size; and it also Broils, Bakes, Roasts, and Boils to perfection. She says it has no superior, and if you attempt to make any improvements in it you will spoil the whole.

Respectfully yours,

ED. WALFORD,

For Richardson & Walford, Superintendents.

From G. W. Fordham, Chief Steward of the Collins Steamer "Adriatic."

March 1, 1859.

Mr. Chas. J. Shepard—

Dear Sir—After using one of your Superior Family Ranges for nearly a year, it gives me pleasure to state that its operation has always been very satisfactory. Having used previously several descriptions of Ranges, and after canvassing their merits, I have found that none of them possessed such an admirable combination of excellent and desirable qualities as is to be had in yours.

Your Range excels others in its simple construction, its easy management, in the convenient arrangement of the cooking utensils, in the two fine operating and large ovens, which well supply the place of the old-fashioned brick oven, and in the sliding fire-grate, which operates instantly and effectively in clearing the fire-place, without the usual annoyance of flying ashes.

But a more special and important advantage, one that housekeepers cannot fail to appreciate, is in the great economy of your Range. It certainly requires but very little fuel, and it is so constructed that it is not liable to get out of order.

You can, therefore, safely say, that you have the most economical and the finest operating Range ever used.

Yours,

GEO. W. FORDHAM,

Chief Steward Steamship Adriatic.

No. 242 WATER STREET,

NEW YORK.

STREET AND AVENUE DIRECTORY

OF THE

(CONSOLIDATED)

CITY OF BROOKLYN,

Corrected and revised in accordance with the latest Corporation numbers up to May, 1860.

Showing the position, commencement, and termination of each Street, Avenue, Place, Lane, Court, Alley, etc., in the Consolidated City, with the junctions and crossings of the intersecting streets; also, the number of the building at the corner of each street, avenue, etc., when there is any.

When there is no house on the corner, or where the corner house fronts on the crossing street, the number nearest the corner is given, and a * placed before it to denote that that number is not to be looked for on the corner of the street or avenue named.

A — denotes that there is no number on the corner or near the corner.

A † placed in the right or left column denotes that the street does not extend to that side of the *one* under whose heading it is found.

As a rule, the numbers will be found to commence westward and northward from the opening of the street or avenue, the *even* numbers occurring generally on the *right hand* side.

EXPLANATIONS.

If you wish to find the location of any number—for instance, 115 Bridge Street—on consulting the Directory you will observe that 105 Bridge is on the left hand of that street and on the corner of Prospect, and 129 Bridge is on the left hand corner of Sands; hence, the desired location of 115 Bridge is between Prospect and Sands, on the left hand side.

The capitals E. D., when placed after a street, avenue, etc., denote that it is in the Eastern District. As there are several streets in Greenpoint, Bushwick, and Williamsburgh of the same name, and all being reckoned as the Eastern District, the exact location of such streets is given in connection with the capitals E. D.

Note.—As there are two Hudson Avenues in the Western District—one running from East River, between Gold Street and the Navy Yard, south to 208 Fulton Avenue, the other from Fulton Avenue, between Brooklyn Avenue and Albany Avenue, south to City Line (Flatbush)—the latter will be designated through the body of this work by *Italics*.

THE AMERICAN PUMP

Patented April 5, 1859.

WITHOUT SUCTION—WITHOUT PACKING.

This is a DOUBLE ACTING FORCE PUMP, with but one bore and one piston, worked by a tee piece, having as much leverage and less friction in its working than any other pump heretofore invented. Warranted to give satisfaction, or the money will be returned; will not rust, will not freeze; throws water 40 feet by hose; forces to great heights and distances by hand; simple, cheap, durable; prices from $15 to $60; works by power also; raises from 5 to 60 gallons per minute.

"The labor of working is very trifling."—*N. Y. Ch. Ad. and Journal.* "It brings [illegible] with little or no labor."—*So. Planter, Va.* "It took the premium at our State Fair."—*Raleigh Register, N. C.* "We never saw one comparable to it."—*St. Louis Ch. Advocate.* "We consider it the best we have ever seen."—*Galveston News, Texas.* "It surpasses every thing we have examined."—*U. S. Journal.* "The most useful invention of the day."—*N. Y. Express.* "A boy of 10 years can work it at 60 feet."—*N. Y. Independent.* "One man forced water 540 feet and 97 perpendicular."—*Scientific American.* "We have seen one; a man can work it at 100 feet."—*Day Book, N. Y.* "Those who have used it speak highly of it."—*N. Y. Observer.* "We give it our unqualified approbation."—*Special Paper, N. Y.*

Complete drawings, prices, &c., &c., sent free.

JAMES M. EDNEY, 147 Chambers St., N. Y.

N. Y., May, 18[illegible]*.*—J. M. Edney, Esq.—Having had one of your No. 3 pumps in successful operation for 18 months, on my premises at Greenwich, Conn., which forces the water up a hill to the distance of 540 feet, and to an elevation of 97 feet, I am enabled to state that it has more than met my expectations, and has not only given satisfaction, but evidence of superior capability, strength and durability.

ROBERT M. BRUCE.

New York, April 16, 18[illegible]*.*—I hereby certify that a No. 2 American Pump, placed in my [illegible] near [illegible] Bridge, forced water, by the easy, regular work of two persons, to a perpendicular elevation of 80 feet, and horizontally [illegible] feet, discharging 5 gallons per minute, to my entire satisfaction.

GEO. [illegible], [illegible] Chambers St.

In operation at 70 feet, at [illegible] E. 19th St., and at the office. Drawings and prices free.

Staten Island Fancy Dyeing Establishment,

Office, Nos. 5 and 7 JOHN STREET, 2 doors from Broadway, New York.

The undersigned, proprietors of this Establishment, have for a long time (the senior partner of the firm, Nathan Barrett, for thirty-seven years) been prosecuting their business at Staten Island. They have spared no effort or expense, especially in the last few years, to excel in all the branches of their art, and have been successful in attaining a high degree of improvement, as well as the machinery and apparatus for dressing different styles of goods, as in practical artistic skill. In dyeing and finishing Ladies' Silk, Satin and Merino Dresses, great improvements have been made. In a large proportion of cases, these articles are made, in color and finish, very nearly equal in appearance to new goods. Crape Shawls, Cloaks, Mantillas, Velvet Garments, &c., are also very successfully treated. Faded and stained goods restored or re-dyed.

SILKS AND SILK DRESSES WATERED,

Lace and Muslin Curtains, Carpets, Rugs and Table Covers cleansed and re-finished; Damask and Moreen Curtains beautifully dyed. Also, Ribbons, Hosiery, Gloves, &c. Orders executed with care and dispatch.

GOODS RECEIVED AND RETURNED BY EXPRESS.

FIRE-PLACE STOVES,

To heat from two to four rooms from the same fire: they combine the advantage of a FURNACE and STOVE, as there is a current of cold air brought in, warmed, and diffused throughout the rooms as desired. This Stove has been well tested, and put up under guarantee to give satisfaction, and when set up makes a beautiful ornamental finish. In this Stove we have made an improvement that protects the Mantel from heat, and at the same time adds much to the heat of the Stove, as there is an air chamber formed over the top of the fire, for heating the air, which prevents the air from escaping until thoroughly warmed.

PURE MILK ASSOCIATION

We, the undersigned Association, would inform the inhabitants of Brooklyn, and all those who are desirous of obtaining Pure and Wholesome Country Milk for their families—and especially those who have small children under their care—that we now open a Milk Trade in this City, with a far different article than a majority of the families in this community have ever been blessed with.

Our patrons and acquaintances in New York, whom we have served with Milk for the past nine years, being anxious that their friends in the neighboring City should not be compelled to purchase a poisonous composition, vulgarly called "Swill Milk," have persuaded us to form an Association for the sale of **Pure Westchester County Milk,** and establish it here for the benefit of those who are otherwise deprived of the privilege of obtaining it.

All orders will be promptly attended to, by applying to the drivers of our wagons, or at the Depot,

No. 231 Fulton Avenue, Brooklyn,

OR AT THE DEPOT,

No. 139 EAST 37th STREET, NEW YORK.

C. SMITH, President.

THE NEW ENGLAND
MUTUAL
LIFE INSURANCE COMPANY
BOSTON, MASS.

Branch Office, Metropolitan Bank Building, 110 Broadway,
Corner Pine Street, New York City.

JOHN HOPPER, Agent and Attorney.

Benefits of Life Insurance. Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and the advantages which Life Insurance Companies offer in this respect, are too apparent to need an appeal to the public, on their behalf. "A policy of Life Insurance," said Benjamin Franklin, "is the cheapest and safest mode of making a provision for one's family." That more do not avail themselves of the benefits of Life Insurance, must be that the operations of these companies are not as well understood as are those of a similar character, namely, Fire Insurance. A man who neglects to insure his house, if it is destroyed by fire, has but little sympathy in his misfortune, and is censured and condemned for his imprudence; but what is the loss of a house without insurance, compared to the loss by a wife and children of a husband and father, without an insurance on his life? Unlike Fire Insurance, however, every house may not be burned, but every man dies. The necessity of Life Insurance is therefore more apparent and more pressing than Fire Insurance.

Purposes of Life Insurance. Life Insurance may be resorted to for other purposes than that of protecting a family from want. Creditors may assure the lives of their debtors as a security for their claims, or a policy may be taken for a sum payable when the party attains the age of 50, 55, or 60 years, and so make a provision for old age, or payable to their heirs or assigns, should they die in the interim; or a fixed sum may be secured

at death by one payment. A Life Insurance Company is thus capable of being used for the purpose of a savings bank, with this advantage, that should the party die while he keeps his account with the Assurance Company, his heirs or assigns will receive a very much larger sum than they could possibly receive from any savings bank in which a similar account might be kept.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

Difference in Life Insurance Companies.

In answering this question it will be necessary to explain briefly the different kinds of Life Insurance Companies. They are all based upon the same fundamental principles, differing in the plan of organization upon which the business is conducted. This difference consists in their being either *Joint Stock* Companies, *Mixed* Companies, or *Mutual Insurance* Companies.

Joint Stock Companies.

Joint Stock Companies issue at fixed rates, the *profits* being WHOLLY divided among the proprietors.

Mixed Companies.

Mixed Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies.

Mutual Companies, on the contrary, have no proprietary body distinct from the insured, *all of whom* have their proportionate *share* in the surplus accruing from the business.

Advantages of Mutual Co's.

A *purely mutual company* offers then a greater advantage, inasmuch as it divides the *whole* surplus among the insured after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the mixed companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the stock companies, and partially so only with the mixed companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

The *New England Mutual Life Insurance Company* is organized upon the purely mutual plan, and has as the result of this plan, during the sixteen years of its existence, declared to those assured, the following dividends:

36 per cent. to all members since 1858.
38 " " " 1853.
39½ " " " 1848.

Dividends Payable in Cash.

The New England Mutual Life Insurance Company do not pay their dividends in Scrip, but always in CASH. At the close of every five years the Company after paying the expenses of the business, reserving a sufficient sum to re-insure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against, and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus, payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and, in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) *become forfeited*. The cash distribution in 1858 amounted to $335,000.

Liabilities the Company.

Every year a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured of the condition of the Company. Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

Terms of Payment

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

For the convenience of those who desire it, premiums will be received quarterly or semi-annually, or one-half of the amount of five premiums will be loaned to life members for a term of years, on security of the policy itself. Interest computed at *six per cent. per annum*.

This is not insuring on credit; for the Company gets pay from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding as long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

J. H. DOUGLAS, M.D., 12 Clinton Place, Examining Physician,
At the Office, every day at 1 o'clock.

THE FOLLOWING IS THE CONDITION OF THE COMPANY.

POLICIES OUTSTANDING,....................................4,000

This Company has paid, since its organization in 1843, over $700,000 to the families and representatives of insured members. It has made three distributions of surplus funds (in 1848, 1853, 1858), in cash, not in scrip, amounting to over $500,000. The cash distribution, in 1858, amounted to $335,000.
